8000-00003	SM10-SPK (SQ10-B) Network Square Speaker is an indoor wall-mounted IP speaker with a built-in microphone, allowing operators to engage in two-way communication.	\$714	10%	\$643
8000-00004	SM10-SPK-CL (SQ10-T) Network Square Speaker is an indoor wall-mounted IP speaker with a built-in microphone, allowing operators to engage in two-way communication. The SM10-SPK-CL model features a programmable LCD screen that displays the date and time when in standby mode, eliminating the need for a separate clock system. SQ10-T also supports customizable text display for daily notifications, announcements, and alerts in emergencies. Its display-flashing feature enhances visibility, ensuring that important information is noticed promptly.	\$1,714	10%	\$1,543
8000-00005	SM10-HSPK SIP Horn Speaker (SH10) is a SIP enabled horn speaker which provides exceptionally clear and intelligible voice for SIP paging, notification/tone broadcasting and streamed background music. It is suitable to be deployed in outdoor and other open spaces for public notifications and public safety purposes. In addition, SM10-HSPK has a built-in microphone that allows for two-way communication when used with an external button, and it also supports dry contact output. The power can be adaptively adjusted based on different PoE standards	\$771	10%	\$694

1040-00003	Item Details: Manufacturer installation of any or all Juno Expansion Modules performed in Petaluma, CA by FrontRow's professionally trained Production Team instead of performing self-upgrades. Ensures module is installed correctly utilizing proper ESD precautions to protect device from damage. Includes firmware update to latest version and a complete system inspection: Notes: • Up to all four modules may be installed per Juno on one order; • Includes shipping costs from/to customer; • Maintains manufacture warranty for any remaining duration; • Modules are not included with the service and must be ordered using part numbers shown above.	\$500	10%	\$450

1040-00001	Item Details: Save significant installation time by having the Action! or Bravo! microphone in any Elevate system charged, pre-registered to the ezRoom base station, tested, and labeled. A unique identification label will be printed and installed on the ezRoom enclosure and each microphone registered to it to provide easy identification and microphones will be shipped within the ezRoom enclosure, in most cases.	\$36	10%	\$32
1040-00002	Item Details: Pre-configures a unique IP address and device name, and loads a custom configuration file, that has been ordered, onto any FrontRow audio device or wall controller, significantly reducing installation time at the site by allowing devices to be plugged into the school network ready to be used with Conductor Server. Customers may optionally provide a custom list of IP addresses and device names, otherwise defaults will be used. Each ezRoom and its shipping box is labeled with the unique IP address for easy identification.	\$36	10%	\$32
1050-00026	Item Details: Provides turnkey implementation of MyFrontRow application, including: • Setup of a MyCampus school account and Administrative user that can be used with Boxlight's MyFrontRow, MyClass, MyStemKit, and MimioConnect solutions; • Create or import teachers from school's LMS system and assign licenses; • Create and map classroom audio and camera devices to teacher accounts; • Deploy MyFrontRow application remotely using NDMS when a Premium NDMS subscription exists or provide installation instructions on how to download and install it manually; • Provide system administrator training	\$2,143	10%	\$1,929
1050-00024	Custom Configuration File - Basic. Up to 8 assigned single-action buttons to control other Frontrow devices (volume, mute, microphone registration, Bluetooth pairing, HDMI matrix switch input selection, etc.). No third-party device control.	\$357	10%	\$321
1050-00002	Custom Configuration File - Intermediate. Up to 8 assigned single-action buttons to control other Frontrow devices (volume, mute, microphone registration, Bluetooth pairing, HDMI matrix switch input selection, etc.), and 1 third-party device over IP, RS-232, or IR (display or projector on/off or input select, activate motorized screen, window shade, door, etc.).	\$714	10%	\$643
1050-00025	Service; Custom Configuration File - Advanced. More than 8 assigned single or multi-action buttons to control other Frontrow devices (volume, mute, microphone registration, Bluetooth pairing, HDMI matrix switch input selection, etc.), and more than one third-party device over IP, RS-232, or IR (displays, projectors, screens, window shades, doors, etc.), including advanced deployment scenarios like divide/combine rooms.	\$1,429	10%	\$1,286

1050-00030	3-days total project time, including 2-days on-site commissioning of Conductor system for a single school with: • 1 Symphony server; • Setup of SIP dialing plan, audio zones, 4 bell and alerts, 2 bell schedules and SIP bridge integration with existing VoIP phone system (Symphony server configuration only). • Configuration and testing of up to 10 audio endpoints. Service includes kick-off meeting with all project stakeholders, required information gathering, system configuration, 1-hour in-person or remote technical training session for staff and school administrators, 1-hour training for IT staff, classroom audio level balancing, and verification of proper device functionality up to 10 audio endpoints plus additional endpoints purchased using p/n: 1050-00031. Service delivered on-site by a FrontRow TSG Engineer and includes travel costs.	\$10,714		10%	\$9,643
1050-00031	1 additional on-site day for configuration and verification of up to 25 additional additional Symphony audio endpoints. (Order enough to cover total audio endpoints sold)	\$3,571		10%	\$3,214
